WITH FIXED BAYONETS

Strikers Were Met By Soldiers After Long and Weary March.

EXPEDITION WAS NOT SUCCESSFUL.

Marchers Were Halted on the Highway and Forced to Turn Back. McAdoo Women and Mother Jones In the Procession.

Lansford, Pa., Oct. 16.-About 1,500 men and 60 women and girls marched 18 miles from the south side Hazelton region during the night for the Panther Creek valley where they expected to close all of the 10 collieries of the Lehigh Coal and Navigation company, but just as the weary marchers were nearing their destination they were met on a mountain road by three companies of infantry and at the point of the bayonet were driven back four miles to Tamaqua and dispersed. Another crowd of 800 men from the north side of Hazleton also marched here and succeeded in clasing the company's No. 1 colliery at Nesquehoning, near Mauch Chung, before it was scattered. The presence of the soldiers was entirely unexpected and the strikers were much crestfallen that they failed in accomplishing the object of their long march. It was probably the most exciting morning the Panther creek and Nesquehoning valleys have ever experienced. Strikers were scattered over the various roads, and companies of soldiers were scurrying in all directions heading off the marching men. The troops were patient with the strikers, while the labor men were careful not to commit overt acts in the presence of the troops. For a moment just after after the two forces met on the road in the darkness it looked as if a clash would come, but those who had charge of the strikers prevented a conflict.

The march on Panther Creek valley was on the strikers program for several days. The United Mine Workers ever since the strike started have been attempting to close the collieries of the Lehigh Coal and Navigation company in this region. Organizers were constantly in the region, but as a rule they did not meet with much success, so it was decided to use stronger methods to get the men employed in the 10 mines out on strike. Accordingly it was arranged that a big demonstrattion should be held in the valley. It was to have been held Monday, but owing to the heavy rain and muddy roads it was called off until Tuesday. Those who took part were strikers from McAdoo, Yorktown, Bunker Hill and Silverbrook from the south side of Hazleton and the Freeland, Drifton, Jeddo and Beaver Meadow strikers from the north side. The women and girls all came from McAdoo, which is the only borough in the Hazleton region with organized female marchers.

Ordered to Turn Back. Five carriages containing newspaper correspondents who had been trailing along at the rear of the procession were requested to take the lead so that they would not interfere with the plans of the strikers. Following the newspaper men came the other conveyances containing the McAdoo women, then followed a long line of Hungarians, Italians, Poles, Slavs and English-speaking mine workers. At a point about a mile from Coaldale there is a sharp turn in the road and as the newspaper men rounded it there came a command of "halt," and about 30 feet in front of them stood solid rows of soldiers who were stretched across the road with bayonets fixed. Sheriff Toole of Schuylkill county was with them. The commander of the troops speaking to the waiting crowd said: "In the name of the people of the state of Pennsylvania, I command you to disperse and

return whence you came.' The strikers began to protest that they could not be stopped on a public highway and many of them showed a disposition to resist the soldiers. The officers in charge of the troops, however, kept his men in position and the strikers returned toward Tamaqua.

"Mother" Jones, who was in the crowd, vehemently protested against the action of the troops in stopping the marchers, but she was shut off and ordered to move on. The McAdoo women had to be almost pushed along, so slowy did they walk. They continually jeered at the soldiers, calling them all kinds of names, and threatening them with punishment if they should dare to visit McAdoo. It took from 3 o'clock until after 6 to drive the crowd back to Tamaqua.

The soldiers were eight companies of the Fourth regiment which has been report lacks verification.

stationed at Shenandoah. General Gobin was in command.

When the soldiers had driven the strikers over the mountain a company was sent to Tamaqua to quell any disturbance the scattering strikers might stir up there. Further along the road a company was deployed to protect a coliery while the marchers were passing it. The three companies met at Tamaqua and scattered the marchers.

While all this had been going on the north side marchers had exerything their own way in the Nesquehoning valley. They persuaded enough men to remain away from the Lehigh Coal and Navigation company's No. 1 colliery to cause it to be shut down. General Gobin sent two companies of soldiers there and restored order.

END IS IN SIGHT.

so Think Operators Who Are Preparing to Resume Work.

Scranton, Pa., Oct. 16 .- Assurance of the end of the strike of the anthracite miners seems certain in view of the preparations being made all through the Lackawanna valley for the resumption of work. The coal companies are crowding their mine sidings with empty cars and the end of the week will find thousands of cars n place where formerly only hundreds were to be seen. This is done in order to be prepared for the great demand for coal which will necessitate the running of the mines and breakers to their utmost capacity for weeks in order to get stock ahead to meet the winter demand.

Becoming Impatient.

Wilkesbarre, Pa., Oct. 16 .- Some of the striking mine workers in the Wyoming valley are getting restless over the delay in settling the strike. Many of them expected to be at work by Wednesday but it now looks as though the fifth week would go by without operations being resumed. The operators here are still of one mind and say "If the men want to return to work at the 10 per cent increase origi nally offered they are at liberty to do so."

Couldn't Coax Strikers Back.

Shamokin, Pa., Oct. 16.—Despite an active canvass by a number of men to induce miners to go to work at collieries between here and Hickory Ridge, none reported for duty and the persons circulating petitions asking men to resume work pending a settlement of the terms of the Scranton convention have been disappointed.

Soldiers Very Busy.

Coaldale, Pa., Oct. 16.-The local union of the United Mine Workers met early and prepared to welcome in a body the marchers from Hazleton and vicinity, but the soldiers got there before the strikers and dispersed the meeting, ordering the men to their homes.

Strikers Arrested.

Tamaqpa, Pa., Oct. 16.—Between 25 and 30 men were arrested by soldiers, and all but a few of them were discharged. They were accused of carrying concealed deadly weapons and inciting to riot.

Demand For Troops.

Hazleton, Pa., Oct. 16-Frank Pardee of A. Pardee & Co., made a demand on the governor for troops. The Lehigh and Wilkesbarre Coal company has also requested that soldiers be sent to McAdoo.

Blackburn's Son-in-law Suicided. Washington, Oct. 16.-Thomas F. Lane, son-in-law of ex-Senator Blackburn, committed suicide at his home here. Mr. Lane shot himself in the presence of his little daughter, while his wife was resting on a couch in an adjoining room. Death was almost instantaneous. Mr. Lane was the American representative of the London ordnance firm of Vickers Sons & Maxim. He was well-to-do, prominently connected and a familiar figure in Washington society. It is said he was driven to the act by brooding over his ill-health. He was told some time ago that he had bright's disease which preyed on his mind. Senator Blackburn was in Hagerstown, Me., when the news of the suicide reached him. He had been on a campaign tour of the state. He left as soon as possible for Washington and it is likely that the occurrence will force him to abandon any further active work in the campaign.

Long Lost Lansing.

San Francisco, Oct. 16.—The British ship Lansing, which left Port Blakely June 1, bound for Port Pierie, Australia, is now out 136 days and 20 per cent insurance has been offered on her. She has a cargo of nearly 2,000,-000 feet of lumber. A story is current in shipping circles that the crew mutinied, killed Captain Chapman and located on Bonham island, in the South seas, after wrecking the vessel, but the

Hanna Hoarse With First Day's Speaking But He Does Not Let Up-Stev ason Joins Br, an In New York - Jones' Letter.

Hamilton, O., Oct. 16 .- At this place, 25 miles from Cincinnati, Governor Roosevelt made his first stop Tuesday on his tour of Ohio speaking to a large crowd. The speakers' stand was a block from the train and thither the governor was escorted by Governor Nash, Food Commissioner Blackburn, L. C. Laylin, candidate for secretary of state and others. A feature of the program here was the presence on the platform of the mother of Captain Huston of Oklahoma. Captain Huston was an officer in Colonel Roosevelt's regiment during the war with Spain, and on the breaking out of the trouble in the Philippines he went thither, where he died. Governor Roosevelt shook hands with Mrs. Huston and escorted her to a seat at his side. "I recall your noble son," he said, "and knew him well as a brave man and soldier." "Yes, Governor," was the reply, "I gave one son to my country and would give another if I were blessed with one." Captain Huston's body was buried here.

At Dayton there was a public reception at the Beckel hotel, and afterward the governor was escorted in a parade to the fair grounds where he addressed a large crowd. Stops had been made at Middletown and Miamisburg, where the governor spoke to large audiences, at the latter place using the front porch of the Miami Steel company's main office as a platform.

Governor Roosevelt and party reached Columbus after 7 o'clock. There was a big procession, which escorted him to the Auditorium, where he and Senator Foraker and others spoke.

Mr. Bryan was accom- be adjudged a lunatic. panied from Cleveland by Mayor Jones of Toledo, who will be with him during the greater part of his New York tour. He was joined at Cleveland by Norman E. Mack, Democratic national committeeman for this state. Mr. Bryan entered his stateroom immediately on returning from the last of his Cleveland meetings and did not emerge therefrom until breakfast was announced. There were several calls for him by crowds on the way after leaving Cleveland, but he did not respond. it had not been his intention to make any speeches on his way to New York city, and the train stops were not long enough to permit his doing so if he desired. Mr. Bryan prepared no speech for New York, but talked extemporaneously in all his meetings there. Mr. Bryan expresses his gratification on the success of the Ohio meetings.

large crowd gathered at the station at Albany to see Mr. Bryan as he passed through. He was joined there by Elliott Danforth and James Oliver. Mr. Bryan arrived at the Grand Central depot at 2:55 p. m., and was greeted by an enormous crowd. Mr. Bryan is in good health, but his voice is somewhat hoarse. He spoke at night at Madison Square Garden, Cooper Union and Tammany hall.

Circular to Democrats.

Chicago, Oct. 16.-Chairman James K. Jones of the Democratic national committee and William R. Hearst president of the National Democratic clubs, have issued the following circular: To Democratic clubs: In the free exercise of the right of suffrage lies the safety of the republic. Every patriot, every honest man, is interested in preserving this right at all hazards. Will you, therefore, every man of you, please report promptly to one of us every instance coming to your knowledge of any attempt to coerce or intimidate any voter, by any employer, whether a single person, a company or corporation, and whether attempted by threat, by the pretence of orders received conditioned on the election of McKinley or otherwise? Every such offender deserves, like Cain, to be a "fugitive and a vagabond" on the face of the earth and the public ought to know who they arc.

Hanna In Minnesota.

Waseca, Minn., Oct. 16 .- Hoarse from his efforts Monday, Senator Hanna began his speechmaking in Minnesota at an early hour. The first stop

Kinley as the Moses of the Republican party. Waseca was the next stop. Mr. Hanna was interrupted several times by people in the crowd, who asked questions about various trusts. Mr. Hanna denied there was any coal or wire nail trusts, but admitted amid laughter there was an ice trust. A stop of 45 minutes was made at Mankato, beyond which the itinerary included brief stops at New Ulm, Tracey and Marshal, Minn., with an evening meeting at Watertown, S. D.

YOUTSEY'S TRIAL.

Unconscious Body in Court-Judge Refused to Dismiss Case.

Georgetown, Ky., Oct. 16.- When Youtsey's trial was resumed Youtsey's bed was pulled up to the door in plain view. Wharton Golden, W. H. Cuiton, Arthur Goebel and Lieutenant John then made the statement to the jury for the defense. Youtsey was reported worse at moon, his temperature having increased and his jaws so tightly clos ed that no food could be given him.

At the afternoon session the defense moved to discharge the jury and continue the case because the defendant was still unconscious and in a worse condition than before. Judge Cantrill overruled the motion.

The defense asked that Youtsey be called as a witness. The sheriff called Youtsey, but he did not answer. The defense asked that he be brought into court.

"He is already in court," said the judge.

"We want him on the witness stand," said Colonel Nelson.

"Very well, bring him in, Mr. Sheriff and put him on the stand," said the judge. The deputies and guards brought Youtsey in on his bed and set it down in front of the jury. Colonel Nelson asked Youtsey several questions, but got no response, the defendant lying as one dead on his bed.

"We can get no response from the witness," said Nelson.

"Very well, let him stand aside," said the judge, and the bed was carried back to the jury room.

Colonel Nelson made another motion to discharge the jury because the defendant was not really in court facing his accusers, but simply an unconscious body. The judge said the from Cleveland to New York city, law provided that before he could diswhere he made his first speech in the charge the jury the defendant must

FIGHTING WITH FILIPINOS. Three Americans Killed' Several Were

Captured-Treachery of Police. Manilla, Oct. 16.-A detachment of 20 men of the Twenty-fourth regiment while engaged in repairing telegraph wires Oct. 10 at a point near San Jose, Nuevo Eccija province, Isle of Luzon, were set upon by 200 Filipinos and were overpowered and scattered. Seven of the Americans reached San Jose, but it is probable the remainder were laptured.

The Filipinos surprised a party of scouts of the Forty-third infantry at a point three miles from Takloban, Leyte island, killing three Americans at the first volley. Two escaped and gave the alarm, but the enendy succeeded in evading their pursurers. The native police at Takloban had conspired to surprise the Americans. The bodies of the dead soldiers were badly mutilated.

Robbed on a Train.

Marietta, O., Oct. 16.-Three men held up and robbed John Kopte, a Russian Pole, on a Baltimore and Ohio passenger train east of Athens. Kopte had been in America one year and was returning to his family at Bremen, Germany, with his earnings in the coal mines at Corning, amounting to \$100. The robbers left him penniless. They escaped.

Cement Exploded.

Detroit, Oct. 16.-An explosion of rubber cement occurred at 1:30 p. m. in the building at 15 Jefferson avenue, occupied by Witchell Sons & Cc., shoe firms. One man jumped from an upper window and was instantly killed. A number of others were injured and one is missing. The building was completely gutted by the fire that ensued

ALL THEY COULD GET.

American Looters Didn't Overlook Much at Tien Tsin.

BIG SUM OF GOLD WAS TAKEN.

Things of Value From Other Sources Swell the Volume to Immense Value-Li Hung Chang Wants The Gold Given Back.

Washington, Oct. 16.-The American share of the loot at Tien Tsin is larger than at first reported. It has been understood that all the Americans took after the capture of Tien Tsin was gold amounting in value to \$278,-Ricketts testified. Colonel Crawford | 000. This report arose from the fact that Li Hung Chang asked General Chaffee to restore that sum to the Chinese government. It now appears that this \$278,000 was only the value of gold coins and gold bars taken from the Chinese treasury at Tien Tsin and apparently it was only the money which concerned Earl Li as a govern-

> Things of value were also obtained from other sources and it is now reported that the total value of the loot will reach a figure about \$100,000 in excess of the amount originally reported. The gold coin and gold bars taken from the treasury were melted by order of General Chaffee. Nothing is yet known about similar seizures in Peking or at points along the line of march. The total value of the seizures will probably be very high. Li Hung Chang's request for the \$278,000 taken from the treasury has received no reply. There is considerable doubt whether the United States is entitled to keep this gold, whatever its amounts may finally determined to be, because this government has been proceeding on the theory that no war exists in China. Nevertheless it is extremely unlikely that the gold will ever be returned to China, even that part of it identified and claimed by Li Hung Chang. It may not be held as spoils of war for the reason given, but it will probably be held as part payment of the indemnity which America will demand.

Americans Endangered.

New York, Oct. 16 .- A dispatch from Hongkong says Americans and their extensive interests in the far south of China are imperilled by the rebellion in Kemang Tung province. Already the revolt is grown to such proportions that the Chinese are unable to suppress it. Mr. Wildman, United States consul at Hongkong, has gone to Manilla to confer over the critical situation with General MacArthur, the commander-in-chief of the American troops in the Philippines.

All Accept French Plan.

Chang was considered one of the ablest men in China. He had been decorated by Queen Vctoria and by the emperors of Russia and Germany.

Approved by Ministers.

Paris, Oct. 16.-A dispatch from Tien Tsin, dated Oct. 15 says the British ambassador, being informed of the basis of negotiations proposed by M. Delcasse, called a meeting of the diplomatic corps in Peking. The French propositions were unanimously approved. United States Minister Conger alone raised an objection, not against the propositions, but against the method of procedure.

"ATHEISTIC FOOLS."

Synopsis of a Sermon on This Subject Sun day Night by Howard T. Cree, at Christian Church.

The second of the series of sermons on special surjects at the Christian Church this month was preached Sunday night by the minister, Howard T. Cree. 'Atheistic Fools' was his subject. A large audience was present. A synopsis of the sermon tollows:

"The fool bath said in his heart there is no God." This was the exclamation of Israel's great King, who looked through Nature up to Nature's God and burst torth with the inspired declaration. "The heavens declare the glory of God and the firmament showeth His handiwork." The expression "Atheistic Fools" is used, not because an atheist is utterly lacking in inthe evidence presented to him. It is the same word us d by the Master when He told of him to whom God said, "Thou fool, this night thy soul shall be required of thee." A well-reasoning man will accept that theory in life which explains the greatest number of known facts. Men can be divided into but two classes-theists and atheists, the one believing in mind as the producing cause in creation, and the other that ence. A theist, to prove his case, must depend on inferential and analogical reasoning, which is considered, however, a legitimate process in every other department of life. As reasons for

(1.) It is an explanation of creation, Confronted by the inanimate things of life, not only to scientist, but to every student comes the query, whence? A time was when things were not, whence came they? What the first great cause? Though we accept the nebular theory How no you like being robbed daily by of creation and trace all back to a mere mist with millions of atoms in motion in process of forming the worlds, what great cause imparted the motion? Either, with Ingersoll, must we exclaim, "It just happened so," or take the more If you like it, vote for McKinley and rational position of Thomas Paine, who, realizing that everything carries with it the evidence that it was not self-made, affirmed, "I believe in one God * * * the Cause of all things."

(2.) It explains the origin of life. Herschel's great theory of "spontaneous generation" has been too well exploded to admit of serious consideration. Science has imitated everything in nature save the germ of life. Science can make a grain of wheat indistinguishable from nature's product in every way save that it has no germ of life and will not grow. "Life is the gift of life." Even it evolution could explain the process of WE commend the answer of General growth, it cannot tell whence came original life. Only the Bible gives the proper solution, that, "God breathed into man the breath of life." Hence do we see that there must have

The Hebrews have Moses as "I fear I have little consolation to of- their law-giver; the Greeks, Solon and Lycurright in man has as its author, God.

As reasons against atheistic belief might be

(1.) It discredits evidence. He who dogmatically asserts there is no God arrogates to himself tainable knowledge in the universe, a position the great Tyndall would not occupy. It leaves the world to mere chance, and makes law but an folding of a wonderful story

(2.) Atheism begets anarchy. Even secularism begets atheism, according to the profound conv.ction of Mr. Chas. Bradlaugh, the great exponent of secularism in England, and this in turn b eeds anarchy. Said Bakounine, the founder of the anarchist movement: "The first lie is God, the second lie is Right. Let your own happiness be your only law." But as some one has said, "If the world is run without intelligence, why not society without brains?" (3.) Atheism makes utility the test of morality, most deadly disease in a city. As said Voltaire : If there was no God it would be necessary to invent one in the interests of humanity. An atheist of any capacity would be more dangerous to any community than the most bloodthirsty enthusiast." Little did he think that these words were prophetic in their meaning, for the legitimate outcome of atheistic princiof Diderot, Rousseau and Voltaire, and Thomas Paine took part in their deliberations and helped claimed Reason the only divinity, and ushered in the darkest era through which France has ever passed and from which to-day she has not recovered. More than three million lives paid the penalty of inaugurating a reign of so-called reason. And yet this is what Ingersoll wanted Congress to do, to do away with God and sweep edy performers ever engaged for this away everything that shows the spirit of Chris-

Atheism has never been a success. It could Free and untrameled it has not even maintained a foothold it once had gained, while Christianity has suffered as no other religion, yet has affliction-a time when religion is most needed. Even Ingersoll could not dispel the melancholy at his brother's grave. Atheism has never elevated anyone, has inaugurated no missionary enterprise, has made no sacrificial offering, nor does it promise any hope of immortal life.

Said Herbert Spencer, "The atheistic theory is not only unthinkable, but if it were thinkable

THE "TERRIBLE TEDDY."

An Independent Democrat's Opinion of Col. Roosevelt and His Speech Here Monday.

I am an independent Democrat. I wear no collar. I call no man master. I staid in town Monday for the first time in months to hear the Republican speakers. Wilson was all right and made Democratic votes, as well by what he said as by the men who sat on the platform by him. But the interest centered in Theodore Roosevelt, the candidate for Vice President on the Republican ticket. I had seen and heard for fifty years the most of the celebrated orators, preachers and lecturers in the U. S I took special pains to hear Teddy, to get near and to see him. To say that I was disappointed, but feebly expresses the result. I was simply disgusted. He had a grand audience so far as numbers were concerned, but he mistook its character and shot underneath even them. He evidently did not know Kentucky people. The cow and calf story he told had whiskers on it when Methusaleh was a baby. (3.) That this cause was an intelligent being Its vulgarity and obscenity were patent. Teddy would make a good second clown in a circus. There were ladies in his audience, but luckily they were of too pure minds to catch the drift of his dirty joke. I thank my God, day by day, that Kentuckians are not such as represented in heard Roosevelt's speech can fail to vote for Bryan and Stevenson I fail to see. I am a personal acquaintance and friend of Stevenson, and if he is as I knew him he would rather die than soil his lips with the story Roosevelt told in Maysville.

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is ex-cellent." This shows what thousands have proved,-that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by J. J. Wood & Son, druggists. Guaranteed.
